Dearest my sponsors KOFC Isabella Council # 15,

I'm very happy to received a greeting card from all of you though I can't write all your names but I'm glad to know some of your names. Thanks for being united just to help a young Filipino boy like me. You're all God's great blessing to me and my family.

I'm back to school now, school year started last June 15. I'm very thankful that I had all my needs in school through your kindness. I'm first year high school now and during the first day I'm so excited to deal with a much bigger crowd I imagine we're 60-70 students per classroom, in a public high school though I needs to exert more effort in studies. to let my Teacher know me because we're several section in first year that made my teacher might forget my name if I will not participate well in our lesson.

Thanks for your support. I'm blessed to have a big family across the sea. I love you! God bless! I hope to have a picture from all of you!  
Love,  
Feral Cabuquin
